## Seamer Rental Instructions:

Here is the link you requested. Please have the customer put your company name for the panel manufacturer and your panel name for that information. There is a special instructions box that I would suggest they put "See Joe Patrick for Details". This will alert our Rental Department to give me a call about what seamer setup should be on this equipment. If the customer has questions about the form they can reach out to me and I can walk them through it if they have their panel information.

## Link To Generic DI Seamer Rental:

https://seamerrental.com/order/di/form/order.php

## Panel Manufacturer:

Vantage Metal Works, Inc.

## Panel Name:

Mechanical Seam – 1.5" (VM150)
